DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I in the reply filed on 11/01/2007 is acknowledged.

Conclusion

2. This application is in condition for allowance except for the following formal matters:

With respect to claim 1, the phrase "connection of said switch based on a line voltage of the electric power system and/or a connection state between said apparatus and the electric power system" is indefinite. It is unclear whether the controller is controlling the connection of the switch based on the line voltage and the connection state or the controller is controlling the connection state between the apparatus and the electric power. Similarly, the phrase "discriminating a line voltage of the electric power system and/or a connection state between the converting apparatus and the electric power system" in claim 36 is unclear.

In claim 36, "9f" should be changed to --of--.

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
